GEST DISTRIBUTION MARK

ABOUT

HAL SERVICES LLC is a legally registered limited company with land transport business activities, operating through-out the Middle East countries since 1989 November.

Our initial entry in the year 1976 under the title of our parent company golden desert transport and trading company and its activity was completely attached to oil field companies.

Our constant endeavor to achieve complete customer satisfaction has ensured us a loyal clientele. By providing an array of specialized services, HAL services logistic has become a one-stop-shop for all your logistic solutions.

HAL SERVICES was incorporated under the visionary leadership of Mr. RANI BAHIJ YASSIMINEH, known for his successful business ventures in multiple countries across the Middle East. In the last two decades of operations in the Sultanate we can boast of a proven track record and rich experience in providing oilfield cargo and land transportation services to some of the premiere companies.

OUR HISTORY

We activities, operating through-out the G.C.C countries since 1989 November. Our initial entry in Oman was in the year 1976 under the title of our parent company Golden Desert Transport And Trading company and its activity was completely attached to oil field companies.

1996

Ever since we are established in Oman, without being attached to oilfield companies namely Halliburton Worldwide Ltd., Dowell Schlumberger (from 1996 to 2000) Weatherford Oil Tool M.E. Oman (From year early 2012 to transport general cargo, Trucks / oilfield equipments lease on long term rental, Man power supply etc. Recent past from June 2013 we started business in a small scale with Baker & Hughes,

2001

We are proud to say that it is due to our commitment in providing specialized and high integrated logistics service to the ever booming oil & gas sector for the past over 25 years has supported us to continue to remain with our service in the oilfield locations regardless of the tough competition exists in the field.

2013

We provide quality transport & logistic services throughout the Middle East Region. Every truck has IVMS facility to track the vehicle while on long & short distance trips.

2015

We got the full contract of Halliburton Worldwide LTD. Schlumberger, Genenergy (IPC), Qenergy, OOISS, Abraj Energy services and going strong.

2017

Our success story remains and continues with addition of BP Oman Contract

HSE MANAGEMENT

- **Is committed to implement, maintain and continually improve the HSE management system in accordance with the requirements of ISO 14001:2004 and OHSAS 18001:2007, awarded ISO 9001-2015 on Quality Management System (QMS).**
- **We aim of achieving and demonstrating good practices in the industry for HSE by establishing suitable procedures and controls in place of our logistics services and also to meet the applicable regulatory and statutory requirements in a consistent manner. Measurable HSE objectives and targets are established at relevant functions and levels to monitor measure and analyze at periodic intervals.**

To accomplish this HSE policy, it is ensured that:

- Environmental aspects and impact, Occupation, Health and Safety are identified, controlled, monitored, measured and analyzed.
- Adequate resources are available.
- Minimize the environmental impact by conserving natural resources, eliminating wastes, reusing, and recycling.
- Training needs are identified and provide continuously.
- Policy is understood by all level of employees and available to the public on request and it is renewed at periodic intervals for its suitability.
- Conducive work environment is prevailed that promotes the staff work ethics and their Health & Safety.
- Conducting a comprehensive audit program that benchmarks safety systems at management level for each physical site locations and ensure the client feedback and take suitable corrective and preventive actions for the continual improvement of HSE Management System.
- Driving is the major operational risks in HAL as we are providing the transportation services. The management expects all the HAL drivers as well as if any subcontractor drivers to strictly adhere to the following driving safety rules, regulations and guidelines.
